

Mass Formation Psychosis

Dr. Malone and Dr. McCullough continue to amplify the message. Telling the truth has become a revolutionary act. Telling the truth to everyone you meet will save humanity. So keep doing it.

This is not a new term or concept.

It's been known as “**Mass Formation**” as formulated by **Dr. Mattias Desmet**, Professor of Clinical Psychology, Ghent University; and “**Mass Delusional Psychosis**” by **Dr. Mark McDonald**, psychiatrist, author of *United States of Fear*.

The idea has been recently presented as “**Mass Formation Psychosis**” by Dr. Malone and Dr. McCullough, which has brought it the most attention.

A succinct video from Reese Report explains it:

Sorry

In dictatorships, obedience comes from a basic fear of the dictator. But, with totalitarianism, the people are hypnotized into obedience.

In psychological terms, this mass hypnosis is known as mass formation. And totalitarianism always starts with a mass formation inside the population.

A mass formation requires 4 conditions to take root.

1. The masses must **feel alone and isolated**.
2. Their lives must **feel pointless and meaningless**.
3. The masses must experience **constant free floating anxiety**.
4. They must experience **free floating frustration and aggression**.

These conditions were met in 2020 with the Covid lockdowns and the BLM riots.

Telling the truth has become a revolutionary act. Telling the truth to everyone you meet will save humanity. *So keep doing it.*
